

Supporting COMMUNITIES

Using less to move more

Georgia Ports Authority commitment to conducting port operations in a sustainable manner extends beyond the port itself and into our offices and every aspect of our operations. We also recognize that support and involvement in the community is imperative to the success of the Port of Savannah and the community as a whole.

Our administration building is LEED Silver certified, using **30% LESS WATER**

59% REDUCTION IN LIGHT POLLUTION AND WASTED ENERGY

by implementing a new lighting system in the container yard

20,000 TONS OF RECYCLED CRUSHED CONCRETE were used to make the Cross Terminal Roadway

350,000+ FULL- AND PART-TIME JOBS are supported by Georgia's deepwater ports
